

Breakthrough Treatment

Now Available In Sun Bird

Sun Bird, AZ – Imagine forty years ago if you were told that lasers would replace scalpels in surgery or that robotic instruments would build cars; you might not have believed it. By the same token, would you believe that chiropractic treatment could be performed using a special hand-held instrument developed by aviation engineers; all while you were sitting in an upright position without any turning or twisting movements?

According to Dr. Peter Sutton, “This new form of computerized treatment is so gentle and effective, that it amazes even the most skeptical patient. It’s called the ProAdjuster and is the latest, state-of-the-art technology in existence today, and one of only a few in the Chandler area.”

The ProAdjuster can safely and gently analyze and treat the spine and other joints to remove the nerve impingement that is often the cause of pain in the low back, neck, shoulder and elsewhere in the body. It also works on a variety of muscular conditions to loosen tight muscles with ease and comfort. Many patients say that it’s like getting a mini-massage. Even patients with knee, hip and foot problems such as plantar fasciitis are being helped. It is also covered by most insurance companies including medicare.

Dr. Sutton says that “The secret to the ProAdjuster lies in its ability to deliver an extremely precise adjustment.” He says that “Even though traditional forms of adjusting also work, people are drawn to this new technique because of how gentle it is and does not involve any twisting, especially in the neck.

Many people love to get adjusted with traditional manual techniques, all of which are safe and effective. However, there are a large number of people who never get to

experience the amazing benefits of chiropractic because they are scared to have their spine adjusted in that way,” says Dr. Sutton. Now there is no longer a reason to be wary.

The ProAdjuster is perfect for anyone who has been thinking about going to a chiropractor, but hasn’t yet made that decision. Dr. Sutton wants everyone to be able to experience the same benefits and if you have any of the following conditions, the ProAdjuster may be the answer you have been looking for...

- Low back pain
- Headaches
- Scoliosis
- Arthritis
- Sciatic pain
- Carpal Tunnel
- TMJ
- Knee or hip pain
- Neck or Shoulder pain
- Plantar Fasciitis
- Fibromyalgia
- Sports Injuries
